Education & Awards

- I. B.S. in Computer Science at the University of California Davis. exp. graduation 2018
- II. Boy Scouts of America, Eagle Scout

Experience

- I. **Site Reliability Engineering Intern, Mailchimp** Jun. to Sep. 2017
Built a notification system for Mailchimp's single deployment platform. Notifications capture all deployer (Travis-CI, Docker ext.) actions. Notifications are then visualized using a large Graphite cluster. Additionally, I developed a platform to automate Mailchimp's user-management scripts.
- II. **Co-Founder, Gradfire** Jun. 2015 to Jan. 2017
Gradfire is the first platform to crowdsource students transcripts for effortless and effective higher-education course selection. Joined the Citris Foundry Accelerator at Haas School of Business, UC Berkeley. Currently, the platform has 4500+ registered students, with more than 45,000 visits.
- III. **Software Engineering Intern, Bitglass** Jun. to Sep. 2016
Worked on a CASB (Cloud Access Security Broker) solution for all custom-developed Salesforce applications. Identified API footprints to effectively decrypt and encrypt client data.
- IV. **Software Engineering Intern, XiQ** Aug. to Dec. 2015
Introduced IBM's Bluemix PaaS to pre-existing XiQ API. Specifically used Watson's Discovery & Conversation utilities to introduce more content pipelines; API's accuracy improved significantly.
- V. **Software Engineering Intern, CK12 Foundation** 2010 to 2014
Designed the 1.0 iOS application via Illustrator. Developed an Android application to gamify their educational content. Additionally, built a suite of QA tools to simplify resource citations for content creators and authors.
